P404 Store in a closed container

WARNING: NONE

Reactivity: slightly reactive with oxidizing agents, metals. Hygroscopic (moisture sensitive). Sodium sulfate reacts violently with magnesium. Also incompatible with aluminum, potassium mercury, lead, calcium, silver, barium, ammonium ions, and strontium. Sulfates give precipitates with salts of lead, barium, strontium, and calcium. Silver and mercury form slightly soluble salts. Alcohol precipitates most sulfates out of solution. (Sodium sulfate anhydrous)

IV. FIRST AID MEASURES

Take proper precautions to ensure your own health and safety before attempting to rescue a victim and provide first aid.

Inhalation: Remove from exposure. Get medical attention if cough or other symptoms appear.

Skin Contact: Wash thoroughly with soap and water. Get medical attention if irritation develops or persists.

Eye Contact: Flush with copious quantities of water for at least 15 minutes. Get immediate medical attention.

Ingestion: If victim is conscious and alert, give 2 – 4 cupfuls of milk or water and induce vomiting by one teaspoon of Ipecac syrup or placing the finger at the back of the throat. Get immediate medical attention.

V. FIRE FIGHTING MEASURES

Flash Point: Not Applicable
Flammable Limits: Not Applicable
Extinguishing media: CO2; foam; dry chemical, water spray. Use extinguishing media most appropriate for the surrounding fire.

Fire Fighting Procedures:
Use full body fire fighting clothing and full-face piece positive pressure, self-contained breathing apparatus.
Hazardous Combustion Products:
Extremely high temperatures may produce sulfur dioxide gas.

VI. ACCIDENTAL RELEASE MEASURES
Absorb spills with absorbent (vermiculite, sand, fuller’s earth), and placed into suitable dry containers for later disposal. Avoid generating dusty conditions. Never use compressed air as a means of cleaning.

VII. HANDLING AND STORAGE
Handling:
Use with adequate ventilation. Minimize dust generation and accumulation. Avoid breathing airborne dust. Avoid contact with the eyes, skin, and clothing. Avoid ingestion and inhalation. Keep in closed containers.

Storage:
Store in a cool, dry, well-ventilated area away from incompatible materials.

Routes of Entry:
Sodium sulfate is harmful by inhalation, ingestion, skin contact, and eye contact.

Acute Toxicity:
- Inhalation LD₅₀: NA
- Oral LD₅₀: mouse: 26977 mg/kg

Inhalation:
- May cause respiratory tract irritation.

Ingestion:
